Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-7 (Cancelled)

- 8. (Currently amended) A vaccine comprising a vaccine vector and at least one first nucleic acid molecule, wherein each first nucleic acid is expressed as a polypeptide, and wherein the nucleic acid molecule comprises a nucleic acid molecule comprising a nucleic acid sequence which encodes a polypeptide selected from any one of:
 - (a) SEQ ID No: 2; or
- (b) an immunogenie a fragment comprising at least 12 consecutive amino acids from a polypeptide of (a) SEQ ID No:2, wherein the fragment defines an immunogenic epitope of Chlamydia; and
- (c)—a polypeptide of (a) or (b) which has been modified without loss of immunogenicity, wherein said modified polypeptide is at least 75% identical in amino acid sequence to the corresponding polypeptide of (a) or (b);

wherein the vaccine optionally comprises a second nucleic acid encoding an additional polypeptide which enhances the immune response to the polypeptide expressed by said first nucleic acid

wherein the nucleic acid molecule is operably linked to a promoter functional in a mammalian cell.

9. (Currently amended) The vaccine of claim [[8]] 39 wherein the second nucleic acid encodes an additional polypeptide is a Chlamydia polypeptide.

Claim 10 (Cancelled)

11. (Currently amended) A pharmaceutical composition comprising a vaccine comprising the vaccine vector according to claim 8 and a pharmaceutically acceptable carrier.

Claims 12-38 (Cancelled)

- 39. (New) The vaccine vector of claim 8 further comprising another nucleic acid encoding an additional polypeptide which enhances the immune response to the polypeptide having SEQ ID No: 2.
 - 40. (New) The vaccine of claim 8 wherein the promoter is a viral promoter.
 - 41. (New) The vaccine of claim 9 wherein the promoter is a viral promoter.
 - 42. (New) The vaccine of claim 11 wherein the promoter is a viral promoter.
- 43. (New) The vaccine vector of claim 39 wherein the promoter is a viral promoter.
- 44. (New) The vaccine vector of claim 8 wherein the promoter is cytomegalovirus (CMV) promoter.
- 45. (New) The vaccine of claim 9 wherein the promoter is cytomegalovirus (CMV) promoter.
- 46. (New) The vaccine of claim 11 wherein the promoter is cytomegalovirus (CMV) promoter.
- 47. (New) The vaccine vector of claim 39 wherein the promoter is cytomegalovirus (CMV) promoter.
